

WHO HAS RIGHT OF WAY ON THE CYCLEWAY?

Zebra crossings

At the zebra crossings on Denison St and west of Spring St drivers and bike riders must give way to people walking.

Zebra crossings on the bike path

There are zebra crossings over the bike path next to the bus stops on Oxford St. At these crossings bike riders must give way to people walking.

Bike crossing

There is a bike crossing over Denison St near Spring St, parallel to the zebra crossing. Bike riders must slow and turn sharply to cross and drivers must give way to bikes crossing. Similarly bike riders must give way to people walking where the zebra crosses the bike path.

Signalised intersections

Each signal has vehicle, pedestrian and bike lights. The bike lights have induction loop triggers in the bike path so be sure to stop and wait on them. Everyone must follow their signals and be safe.

Signalised pedestrian crossing

There are two mid-block signalised pedestrian crossings away from intersections, one is between the Westfield buildings and the other is between Eastgate and Bronka Arcade. There are separate lights for drivers, bike riders and people walking which should be followed at all times.

Shared intersections

At the special paved intersections on Oxford St at Mill Hill Rd and Ruthven St drivers and bike riders must give way to people walking and then must give way to each other. This is called a 'shared intersection'.

Green paint on the bike path *(not indicated on map)*

Green paint on the bike path indicates places where people or vehicles are likely to cross as there may be a pedestrian crossing, driveway or intersection. Its purpose is to highlight places where extra care needs to be taken. It does not mean that bikes have priority but identifies to drivers and people walking that there is a bike path.

BONDI JUNCTION CYCLEWAY

Now open from Bondi Road to St James Road

Be safe
on and around
the bike path

www.waverley.nsw.gov.au/cycling

WHAT IS THE BONDI JUNCTION CYCLEWAY?

The Bondi Junction Cycleway provides a safe bike riding environment for people of all ages and abilities.

It connects Bondi Junction to Centennial Park and other cycleways in the City of Sydney and Randwick council areas. It also connects to local bike routes leading to Bondi Beach, Bellevue Hill and other places in the eastern suburbs and beyond.

The Bondi Junction Cycleway is fully funded by the Australian and NSW Governments. Waverley Council and Transport for NSW are using this funding to install new walking and cycling paths and adding greenery to footpath areas and community spaces to enhance the vibrancy of Bondi Junction.

INFO FOR BIKE RIDERS

Are bikes still allowed on the road?

Yes, bikes can be ridden on the road adjacent to the bike path.

Are bikes allowed on the footpath?

Bike riders may ride on any designated bike path or shared path. Children under 16 and an accompanying adult may ride on a footpath, unless it is specifically signposted that riding is not allowed.

What rules must be followed when riding on the cycleway?

Rules for riding on a bike path are similar to the rules for driving in a road lane. Bike riders have priority on a bike path, unless at a pedestrian or signalised crossing.

The green paint zones on the bike path indicate places where people or vehicles are likely to cross, its purpose is to highlight the places to take care.

How fast am I allowed to go?

The limit for bike riders on a bike path is the same as for the road. However, the most important thing is to ride at a speed that is safe for the surroundings. Be aware of the green paint zones that highlight where people or vehicles are likely to cross the bike path.

Can bikes enter Oxford Street Mall?

Bike riders should follow the cycleway onto Spring St and cannot use Oxford Street Mall as a thoroughfare. If you are using one of the bike racks at the end of Oxford St Mall, or your destination is within the mall, you must dismount before entering the mall.

Where can I park my bike?

Light poles along the bike path have bike hoops to lock your bike. Bike racks are grouped together in strategic locations such as Spring St near Eastgate, Bronte Rd and Oxford St near Westfield.

INFO FOR PEOPLE WALKING

Are people walking allowed on the bike path?

People must not walk along the bike path, however are permitted to cross a bike path after giving way to bike riders. The bike path runs in both directions so be sure to look both ways before crossing.

What happens when a zebra crossing intersects with the road?

Bike riders and drivers must give way to people walking across a zebra crossing.

What happens at a shared intersection?

Drivers and bike riders must give way to people walking at shared intersections. An example of this is at the intersection of Oxford St and Ruthven St or the intersection of Oxford St and Mill Hill Rd.

INFO FOR PEOPLE DRIVING

What happens at a shared intersection?

Drivers must give way to people walking at shared intersections. Drivers and bike riders must give way to each other and the intersection operates as a four way give way.

What happens at a bike and pedestrian crossing?

Drivers must give way to bike riders and people walking.

Can I drive or park on a bike path?

Drivers cannot drive or park on the bike path, but may cross carefully to access a driveway. Drivers must first give way to people walking on the footpath and people riding on the bike path.
