

- ① Existing Stormwater tank beneath
- ② New fencing balustrade to the road boundaries of the park. Low planting to both sides of the fence.
- ③ Enclosed play space with airlock entries.
- ④ Seating located around the playground under existing shade for longer stays and carer comfort.
- ⑤ New picnic settings and drinking fountain.
- ⑥ Nature play elements integrated into mulched areas around the existing trees.
- ⑦ Narrow rubber surfaced path for universal access, but designed to be a challenge.
- ⑧ Smaller play cubby and slide for younger users of the play space.
- ⑨ Custom designed play tower and slides, catering to a wider range of ages.
- ⑩ Three different types of swings to cater for all user preferences.
- ⑪ Playground surfacing upgraded to rubber to allow for universal access in and around the play space.
- ⑫ Informal sports multipurpose court for casual use. Including basketball, netball, and rebound wall. Placed above the existing storm water tank.
- ⑬ Breakout space with integrated seating wall, school yard type games (four square/kings).
- ⑭ Public lighting to main pedestrian thoroughfare and footpath upgraded to comply with universal access principles.

NOTE: Colours, location, equipment are indicative and may change during detailed design and engineering.
